

Why choose StaffCare?

StaffCare is our group product designed to deliver quality benefits at a competitive price. StaffCare contains a slightly lower level of cover than our flagship product StaffCare+ but is still comprehensive and includes cover for pre-existing conditions.*

StaffCare has benefit levels designed to ensure your staff can get back to work as quickly as possible. It's made for business owners who want quality care for their staff along with value for money.

Combine quality products, fast turnaround, flexibility and our fantastic Wellington-based customer service team, and it's no wonder that Accuro has been the most recommended health insurer by Consumer Magazine since 2008.

What Accuro does better

All members have access to Best Doctors, a second opinion from the world's leading specialists, at no extra cost.

Fast pre-approvals and claims. We aim to process these within 2 working days.

You're covered for specialist consultations and diagnostic procedures for 12 months either side of surgery (six months more on either side than other insurers).

We cover conditions you've had from birth (congenital), if they're diagnosed after 3 months of age.**

You can choose your own specialist.

Children can stay on the policy until their 25th birthday (four years more than other insurers).

Members on the same policy don't have to have the exact same policy. i.e. you can have the GP module and no excess, and another family member can have all modules and \$2,000 excess.
